

# The Blossoming of the Christ Heart

## One Day Healing and Gathering with Julia Moton

People call Julia pure of heart, a powerful modern-day miracle healer and an embodied angel working and anchoring the light here on earth.

She has a special gift of opening to the higher realms and transmuting negative blocked energy instantly. Many experience this worldwide in her private and group sessions, where it's common to experience deep emotional healing and awakenings to your true divine connection with Source.

Julia is a dedicated Light Worker and travels the globe to many sacred sites for initiations, activations and to open portals and light codes.
